

For the following treatments the consultation is free and a price will be given upon consultation, this part of the clinic is run by Kim Smith RGN, NIP who is a qualified Nurse Independent Prescriber.

### FACIAL BOTOX®

Botulinum Toxin Type A is often the chosen treatment option for the upper third of the face where dermal skin fractures are causing mental distress for the patient.

Because treatment results are not seen till 3-10 days later, a follow-up appointment is made for the patient to be reviewed 4 weeks later, especially in the case of new patients or new treatment areas.

Botox may also be used in other areas of the body: It is excellent at providing "lift" and improved skin tonicity, and can be used to pick up a down turned nose, lift the jowls, lengthen the chin, soften lipstick bleed lines, smooth out lines on the neck and décolleté.

### BOTOX FOR HYPERHIDROSIS

Hyperhidrosis, or excessive sweating, is a common disorder which can adversely affect your quality of life.

Excessive sweating of the underarms or of the palms and soles of the feet are most common. Heat and emotions may trigger hyperhidrosis in some, but many frequently suffer from this condition regardless of their mood or the weather. Excessive sweating is embarrassing and often complicates business and social interactions and in severe cases, excess sweat can have serious practical consequences.

### DERMAL FILLERS

Natural sugar based proteins (Hyalurons) are used to act as a "cushion" to gently lift out skin wrinkles and areas of depression. Pleasing results are seen instantly. The fillers are safe, bio-degradable, comfortable and long lasting.

### FACIAL VOLUMISERS

The mid-face is an area where loss of volume can become very visible, and the nurse will use all her skills to safely and gently replace what has been lost through disease or age. Up-lifted facial contours enhance expression and become more attractive as an immediate result.

### THREAD VEIN REMOVAL

Sclerotherapy is the treatment of choice for removal of thread veins on the legs. The treatments are performed at monthly intervals and the patient will know how many treatments are recommended prior to embarking on a course.

### CHEMICAL PEEL

This treatment is used where there is an existing skin problem such as pigmentation, photo-ageing or scarring. Chemical peels are very beneficial for improving texture and refreshing the overall appearance of the skin, however the side effects do mean that the patient will have a dry, "leathered appearance", especially around day 3-6 following administration.

### MINOR SURGERY

We are able to utilize more of our skills by removing "lumps, bumps, moles, cysts and warts" There are several different methods of removal, and the taking of samples for histology is an important part of our work.

### SCLEROTHERAPY

Sclerotherapy is the treatment of choice for removal of thread veins on the legs. The treatments are performed at monthly intervals and the patient will know how many treatments are recommended prior to embarking on a course.

## PERMANENT MAKE UP

Permanent cosmetics/makeup are a type of tattooing that uses pharmaceutical grade pigments which are applied to the second layer of your skin. This results in a wonderful shadow of colour giving the appearance of make-up, whether it be natural or glamorous. Creating eyebrows, eyeliner and lip enhancements.

**Consultation £25.00** (redeemable against any treatment booked)

<b>friday</b>	9.00am - 7.00pm
<b>saturday</b>	9.00am - 3.00pm

To release the beauty held within through the application of non invasive surgical techniques and treatments.

## CRYSTAL CLEAR

**MICRODERMABRASION** - Takes years off your complexion by gently exfoliating the outer layers of skin. Because it's a safe and controlled method of skin resurfacing, the treatment can be used to solve a wide range of skin concerns on both the face and body.

It provides immediate and visible results for ageing skin, lines and wrinkles, open pores, blackheads, pigmentation, blemish scars, acne scars, stretch marks and so much more. You'll see the difference after just one treatment, however for more problematic skin a course of treatments may be required.

With regular treatments, the skin increases its collagen and elastin formation, giving you a naturally firmer and rejuvenated appearance. Building on this, the gentle vacuum action gives the facial muscles a mini workout each time, providing an immediate lifting effect and an ongoing improvement in tone.

Microdermabrasion Single Treatment.....	<b>£47.00</b>
Course of 10 Treatments .....	<b>£430.00</b>
Deluxe Microdermabrasion Single Treatment.....	<b>£65.00</b>

## IONITHERMIE

**SUPER DETOX BODY** - Anti-cellulite, contouring and firming body treatment. The treatment offers tried and tested targeted slimming treatments to help reduce cellulite, sculpt, firm and tone the body. Using intensive marine masks with fat busting properties combined with our Ionithermie machine that gently helps break down fat and improve muscle tone.

This unique treatment allows you to choose one of the 5 key areas of concern:

**HIP & THIGH SCULPT** - for slimmer hips and smoother, sleeker thighs.

**CHEEK LIFT** - designed to trim, lift and tone the buttocks.

**TUMMY TRIM** - targets soft fat and loss of tone around the tummy making it tighter, more sculpted and flatter.

**BUST LIFT** - improving the overall shape of the bust.

**ARM & TUMMY TRIM** - firmer, more toned triceps and tighter abdominal muscles for a flatter stomach. This treatment is for those wanting a fast, effective treatment with guaranteed results, to reduce the appearance of cellulite and to slim, firm and tone the body.

While the results are noticeable after one treatment we recommend a course of treatments combined with a homecare routine.

Tummy Trim, Hip & Thigh Sculpture, Cheek Lift - 60 mins .....	<b>£66.00</b>
Course of 5 Treatments .....	<b>£300.00</b>
Single Deluxe Treatment - 90 mins.....	<b>£76.00</b>
Course of 5 Treatments .....	<b>£350.00</b>

**SUPER DETOX BUST** - This treatment tones and supports the muscles around the breast area, visibly lifting a sagging bust and also firming and improving slackness of the upper arms. It also naturally improves skin texture and even provide a firming, inch loss effect from around the midriff.

Single Treatment .....	<b>£66.00</b>
Course of 5 Treatments .....	<b>£300.00</b>

## DERMA ROLLER

Dermaroller is a tried and tested procedure that is proven to stimulate collagen and elastin production in the skin which naturally diminishes as we age. There has been little evidence that anything can reverse this process. Dermaroller is one treatment that has been proven to do so. It is the loss of collagen and elastin over time that produces lines and wrinkles as our skin becomes less elastic and starts to sag. Dermaroller provides advanced skin micro-surgical needling, a procedure that stimulates the skin to regenerate and repair itself naturally and safely, creating smoother, brighter, healthier, younger-looking skin. Dermaroller is unique amongst other skin care treatments as it is safe, a natural skin rejuvenation process. It is perfect as an alternative to other beauty treatments for acne scars, stretch marks and wrinkles, as Derma Rollers do not damage the skin or remove the epidermis layer.

Face & Neck.....	<b>£125.00</b>
Course of 4 Treatments.....	<b>£475.00</b>
Face, Neck & Decollette .....	<b>£150.00</b>
